 - Table B. FY 2024 Recreation Activity Participation (Visits) by Reporting Unit..... 56

Background

Outdoor recreation is a cornerstone of American life, offering physical, mental, and social benefits while supporting the national economy. In 2023, outdoor recreation supported \$1.2 trillion in economic output and sustained five million jobs across the country, accounting for 2.3 percent of the U.S. gross domestic product.¹ Activities such as hiking, camping, boating, and sightseeing enhance our quality of life, draw tourism, support small businesses, and strengthen rural and gateway communities. Federal data show increasing recreation visitation on Federal lands and waters, reflecting sustained public interest in access to natural spaces and recreational opportunities.²

The Federal government manages hundreds of millions of acres of public lands and waters that offer diverse recreation opportunities:

- **Bureau of Land Management (BLM):** Administers more than 245 million acres, primarily in the western United States, supporting activities including off-highway vehicle use, dispersed camping, hunting, and rock climbing.
- **Bureau of Reclamation (Reclamation):** Oversees recreation at 289 reservoirs and associated lands, often in partnership with local agencies, supporting boating, fishing, and other water-based recreation.
- **Fish and Wildlife Service (FWS):** Manages over 573 national wildlife refuges, 38 wetland management districts, and 71 national fish hatcheries, providing opportunities for hunting, fishing, wildlife viewing, and environmental education.
- **National Oceanic and Atmospheric Administration (NOAA):** NOAA's Office of National Marine Sanctuaries protects 18 underwater parks spanning over 629,000 square miles of ocean and Great Lakes waters
- **National Park Service (NPS):** Oversees 433 units covering more than 85 million acres in all 50 States, the District of Columbia, and U.S. Territories. Popular activities include hiking, camping, biking, wildlife viewing, boating, climbing, OHV activities, and cultural tourism.
- **U.S. Army Corps of Engineers (USACE):** The largest provider of water-based recreation in the United States, managing over 400 lake and river projects that host visitors for activities like boating, swimming, and camping.
- **U.S. Forest Service (USFS):** Manages 193 million acres of national forests and grasslands, offering numerous opportunities for dispersed and developed site recreation activities, including downhill skiing and snowboarding, viewing nature, and fishing.

The Expanding Public Lands Outdoor Recreation Experiences (EXPLORE) Act, enacted in January 2025, represents a comprehensive, bipartisan effort to modernize and expand access to outdoor recreation on Federal lands and waters. Section 132 of the EXPLORE Act specifically addresses the need for consistent, accurate, and transparent recreation visitation data. It requires the

¹ [Outdoor Recreation Satellite Account, U.S. and States, 2023 | U.S. Bureau of Economic Analysis](#)

² [Visitation and Economic Contributions | Interagency Recreation Fee Program](#)

establishment of a single, unified visitation-data reporting system that includes annual visitation estimates for each unit of Federal recreational lands and waters as well as standardized categories of recreation activities reported across agencies. This unified approach to visitation reporting lays the foundation for improved data-driven decision making, better resource allocation, and enhanced public understanding of how Federal lands are used for recreation.

The Federal Interagency Council on Outdoor Recreation (FICOR) led the development of this report. FICOR is a coordinating body codified by the EXPLORE Act and is composed of representatives from the Bureau of Indian Affairs, Bureau of Land Management, Bureau of Reclamation, Fish and Wildlife Service, National Oceanic and Atmospheric Administration, National Park Service, U.S. Army Corps of Engineers, and U.S. Forest Service. FICOR facilitates collaboration with State, Tribal, and local partners and is charged with coordinating Federal efforts on a wide range of outdoor recreation issues including investments, emergency response, research, emerging technologies, improving access, and public engagement.

Visitation Data Reporting

This report presents recreation visitation data that fulfills the requirements of Section 132(f) of the EXPLORE Act, which directs agencies to report annual visitation estimates for each unit of Federal recreational lands and waters, using standardized categories of recreation activities across agencies. All Federal land and water management agencies collect recreation visitation data, though methods may vary by agency and by unit.³ As a result, data quality and precision can differ, with some units collecting detailed, regularly updated estimates and others relying on broader approximations. These differences reflect the diversity of landscapes, infrastructure, and resources across the Federal estate. Despite these variations, all agencies share a commitment to improving the consistency and transparency of visitation data and are developing more coordinated approaches under the direction of the EXPLORE Act.

Tables 1 and 2 provide summary information about total annual visitation and recreation activity participation in fiscal year (FY) 2024. The *Recreation Visitation Data Appendix* in this report includes tables with FY 2024 visitation estimates for Federally managed recreation sites, organized by agency, unit, and selected recreation

Table 1. Total FY 2024 Visitation by Agency

Agency	Visits
Bureau of Land Management (BLM)	80,760,858
Bureau of Reclamation (Reclamation)	38,771,919
Fish and Wildlife Service (FWS)	70,697,349
National Oceanic and Atmospheric Administration (NOAA)	Not recorded ^a
National Park Service (NPS)	332,635,237
U.S. Army Corps of Engineers (USACE)	260,477,042
U.S. Forest Service (USFS)	164,169,098

^a NOAA does not report total visitation, as the agency only records visitation at visitor centers.

³ [Monitoring Recreation on Federally Managed Lands and Waters—Visitation Estimation](#)

activity categories.⁴ A “visit” is defined as entry of a person onto Federally administered lands or waters for the purpose of recreation.

Table 2. FY 2024 Recreation Activity Participation (Visits) by Agency*

Activity	BLM	Reclamation	FWS	NOAA ^a	NPS	USACE	USFS
Biking	7,699,944	368,972	1,762,535	not recorded	7,301,841	3,482,726	11,331,456
Boating (motorized)	2,489,232	4,301,063	3,722,955	not recorded	9,017,969	37,470,336	3,706,256
Boating (non-motorized)	7,390,144	1,188,542	340 ^b	not recorded	6,192,766	1,794,621	6,224,960
Camping	15,079,353	8,146,174	not recorded ^c	not recorded	5,222,269	36,335,374	17,116,909
Fishing	6,905,957	6,113,382	8,381,957	not recorded	8,835,005	29,270,100	13,955,952
Hiking, Walking, Running	19,187,443	2,034,346	24,927,864	not recorded	141,239,590	31,741,276	79,974,561
Hunting	8,675,529	1,217,756	2,667,749	not recorded	127,059	not recorded	6,291,626
Interpretation, Education, and Nature Study	9,145,828	565,804	2,096,808 ^d	255,155	68,191,639	58,077,989	15,553,361
Off-Highway Vehicle Use	22,934,213	49,176	not applicable ^c	not recorded	636,349	not recorded	7,124,875
Sightseeing	42,551,625	2,383,764	61,777,196	not recorded	293,754,965	68,152,018	70,181,777
Other Recreation Activities	31,773,628	5,782,333	10,673,162	not recorded	not recorded	9,518,149	67,779,336

* For activity participation: “not applicable” means the activity is not supported and “not recorded” means the agency does not collect data on participation rates. In most cases, activity-specific estimates will not sum to the total visitation estimate, as many visitors engage in multiple activities during a single visit.

^a NOAA does not have activity-specific data for FY 2024. Efforts are underway at specific national marine sanctuary sites to expand visitor data collection, which will be included in future reports.

^b FWS Field Stations report the combined number of visits by people using motorized and nonmotorized boats.

^c FWS field stations do not report camping or off-highway vehicle visits as individual activities in the annual reporting system. In the limited locations where they are allowed, these visits are usually added to any additional non-priority recreational activity visits in the field station’s “other” category.

^d FWS data for Interpretation, Education, and Nature Study includes onsite and offsite environmental education and interpretation program participants.

⁴ FY 2024 data are the most recent estimates available across all Federal land and water management agencies. At the time of preparing this report, agencies are analyzing FY 2025 data and collecting FY 2026 data. Agencies may update data collection methods in FY 2027 to include additional information (e.g., additional activity categories) as resources allow.

Each unit of Federal recreation lands and waters provides an estimate of total annual visitation as well as recreation activity participation for each of 11 activity categories (as relevant):

- **Biking**, which may include road biking, mountain biking, cyclocross, touring, gravel biking, fat biking, bikepacking, or e-biking.
- **Boating (motorized)**, which may include speedboats, ski boats, fishing boats, pontoon boats, yachts, jet boats, houseboats, jet skis, or inflatable power boats.
- **Boating (non-motorized)**, which may include canoes, kayaks, towboats, paddleboards, rafts, sailboats, dinghies, or drift boats.
- **Camping**, which may include overnight use at developed campgrounds, dispersed camping areas, backcountry camping areas, primitive camping areas, cabins, shelters, and/or backpacking, horse or mule packing, bike packing, overnight rafting, boat camping, or RV camping.
- **Fishing**, which may include saltwater, fresh water, ice fishing, trolling, spearfishing, bowfishing, or netting.
- **Hiking**, which may include hiking, walking, running, and trail running. These activities are generally day use (whereas backpacking would be reported as camping).
- **Hunting**, which may include waterfowl, upland bird, small game, big game, predator hunting, rifle hunting, muzzleloader hunting, bow hunting, or trapping.
- **Interpretation, education, and nature study**, which may include visitor centers, formal and informal programming, tours, therapeutic programs, citizen science, self-guided tours, cultural demonstrations, or historical reenactments.
- **Off-highway vehicle (OHV) use**, which may include dirtbikes, ATVs, UTVs, four-wheel drive vehicles, sandrails, hovercraft, snowmobiling, and landing of aircraft.
- **Sightseeing**, which may include viewing landscapes, night sky, wildlife, or flowers; photography; painting; scenic driving; or viewing cultural and historic resources.
- **Other recreation**, which may include recreational target shooting, snow sports, horseback riding, climbing, swimming, etc.

Not all units offer all 11 activity categories, and definitions may vary slightly between units. In most cases, activity-specific estimates will not sum to the total visitation estimate for a given unit, as many visitors engage in multiple activities during a single visit.

The FICOR recognizes that additional activity categories may be of interest to partners and stakeholders, though consistent estimates for additional activity categories are not yet available across all agencies and units. The following agency-specific visitation data sources may include more detailed reporting on additional activities:

- **National Park Service:** [NPS Visitor Use Statistics and Integrated Resource Management Applications: Visitor Use Statistics](#)
- **U.S. Forest Service:** [National Visitor Use Monitoring Program](#)
- **Bureau of Land Management:** [Public Land Statistics](#)

- **U.S. Fish and Wildlife Service:** [National Wildlife Refuge Visitor Survey](#)
- **Bureau of Reclamation:** [Reclamation Recreation Overview](#)
- **U.S. Army Corps of Engineers:** [U.S. Army Corps of Engineers Recreation Overview](#)
- **National Oceanic and Atmospheric Administration:** [National Marine Sanctuaries](#)

Next Steps

Future Reporting

This report's unified framework presents a significant step forward in transparency and interagency coordination, supporting informed decision making and enhancing public understanding of recreation visits on Federal lands and waters. Following publication of this report on Recreation.gov, the FICOR will continue to publish annual recreation visitation data report in accordance with Section 132 of the EXPLORE Act. Future reports will continue to use a consistent format across agencies and standardized categories of recreation activities to improve transparency, comparability, and public access to information about how Federal lands and waters are used for recreation.

Future annual visitation reports may include additional activity categories, based on stakeholder feedback, as well as visitation data for lands held in trust for the benefit of Indian Tribes. Currently, the Bureau of Indian Affairs does not track visitation data on lands held in trust for Indian Tribes. Any interested Indian Tribe seeking to opt into reporting may request the Department report this data by contacting EXPLOREAct@ios.doi.gov.

Data Package

A downloadable data package containing the visitation estimates presented in this report will be made available at a future date. This package will include machine-readable tables and accompanying metadata to support further analysis, transparency, and public access.

^{NP1} See [Endnotes Statistical Abstract 2023](#)

^{NP2} See [Endnotes Statistical Abstract 2024](#)

^{FS1} Forest Service data is the most recent estimate for each unit in FY2024. The Forest Service's National Visitor Use Monitoring Program surveys in each National Forest every 5 years.

Table B. FY 2024 Recreation Activity Participation (Visits) by Reporting Unit

Within Table B, “not applicable” means that the unit does not support this activity and “not recorded” means this unit does not collect data on participation rates.

In most cases, activity-specific estimates will not sum to the total visitation estimate for a given unit, as many visitors engage in multiple activities during a single visit.

^{NP1} See [Endnotes Statistical Abstract 2023](#); ^{NP2} See [Endnotes Statistical Abstract 2024](#); ^{FW1} FWS Field Stations report the combined number of visits by people using motorized and non-motorized boats; data entered into FWS Boating, motorized column includes both types of visits; ^{FW2} FWS field stations do not report camping or off-highway vehicle visits as individual activities in the annual reporting system. In the limited locations where they are allowed, these visits are usually added to any additional non-priority recreational activity visits in the field station's Other category

^{FW3} FWS data for Interpretation, Education, and Nature Study includes onsite and offsite environmental education and interpretation program participants
